PROFESSIONAL SUMMARY

Automation engineer working across e-commerce, applied AI and data at **ANCARAT**. Delivered **200+ automation projects** and **20+ rapid code/no-code builds**. Reduced full product processing from **~60 to under 7 minutes (>88% faster)** in one workflow and scaled concurrent automation to **200+ complete products/day**. Experience includes **2,000+ products, 1,600+ variants, 200K+ rows and 10M+ data points**.

EXPERIENCE

ANCARAT · E-commerce Technology & Automation

Late 2023 – Present

- Engineered a **GenLogin catalog pipeline** for media, taxonomy, AI content, attributes and validation; reduced completion time from **~60 to under 7 minutes per product** in one flow.
- Scaled multiple browser profiles to **200+ complete products/day**; implemented an automatic retry queue for **24 exceptions across 749 cases (3.20%)**.
- Delivered **200+ automation projects** and **20+ code/no-code builds**; a 19-workflow GenLogin collection contains **2,489 nodes**, **51 JavaScript/Eval steps** and built-in test paths.
- Structured **2,000+ catalog items, 1,600+ variants, 200+ attribute groups and 20 primary filters** to support product preparation and publishing.
- Organized **200K+ rows** and processed **10M+ data points** in customer segmentation, revenue reporting, dashboards and scheduled delivery.
- Built responsive e-commerce pages and campaign measurement workflows using **HTML, CSS, JavaScript, GTM and GA4**.
- Delivered **one year of senior-level full-stack marketing**: market research, campaign strategy, content production/editing and automated posting workflows.

SELECTED PROJECTS

GenLogin AI Catalog Automation

Role: Automation architecture, JavaScript logic, AI integration and QA/retry flows. **Outcome:** <7 min/product; 200+ finished products/day; exceptions automatically requeued. **Stack:** GenLogin, JavaScript, ChatGPT/Gemini.

E-commerce Catalog & Editorial Websites

Role: Catalog/variant design for 2,000+ products and 1,600+ variants plus responsive ANCARAT campaign and shopping pages. **Stack:** Odoo 17, HTML/CSS/JS, GTM/GA4.

Customer Reporting & Event Automation

Role: Customer/dealer segmentation, revenue dashboards and registration-to-QR/email workflows. **Stack:** Microsoft Forms, Power Automate, spreadsheets and web integrations.

TECHNICAL SKILLS

Automation · GenLogin · JavaScript/Eval · multi-profile browser automation · validation/retry · Power Automate

Web · HTML · CSS · JavaScript · responsive UI · Odoo 17 · GTM · GA4 · Node.js flow design

Data · Google Sheets · Excel · SKU/variant taxonomy · dashboards · reporting · product-image/SKU naming

AI · ChatGPT · Gemini · output QA · Ollama/Qwen · Docker/OpenHands · Hermes Agent/Chromium

EDUCATION

Van Lang University, Ho Chi Minh City
